

Understanding Term Deposit Subscriptions

FlatIron School- Module 3 Final Project

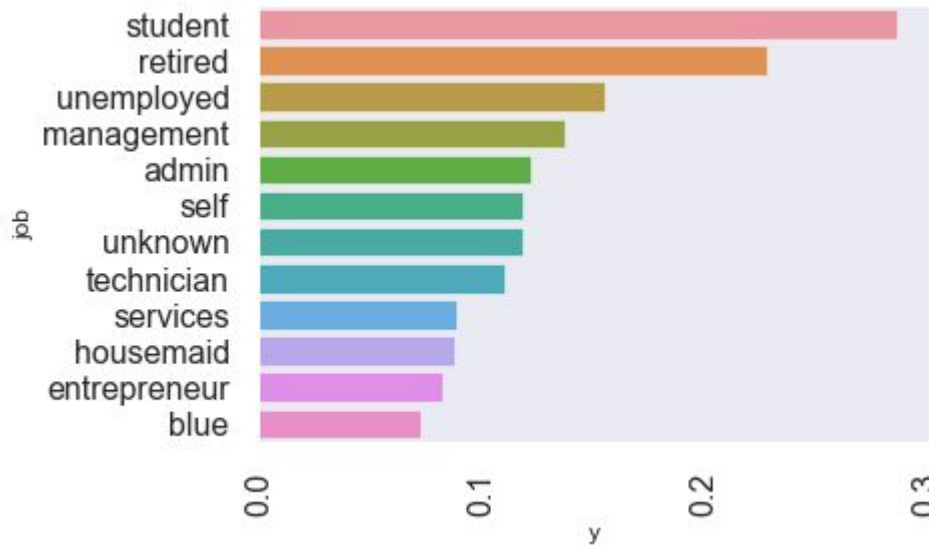

Purpose and Process

*Can we use our gathered data to
determine whether or not our
customers will subscribe to a term
deposit?*

EDA

Basic Models

Random Forest

Accuracy: 88.96 %

F1: 0.2921

Decision Tree

Accuracy: 83.24 %

F1: 0.3081

Logistic Regression

Accuracy: 89.32 %

F1: 0.2657

Support Vector Machine

Accuracy: 89.42 %

F1: 0.2968

XGBoost

Accuracy: 89.33 %

F1: 0.2696

Random Forest Testing Performance

Accuracy: 88.96%

AUC is: 0.59

F1: 0.2921

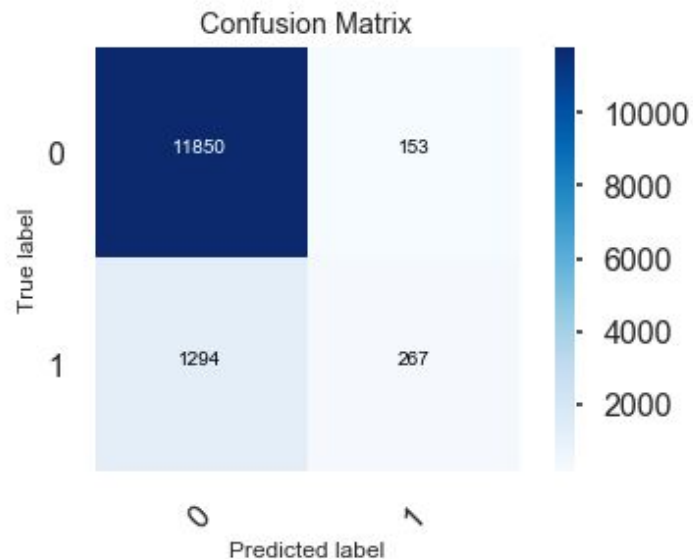

XGboost Testing Performance

Accuracy: 89.33%

AUC is: 0.58

F1: 0.2696
